

# KanQuit!

1-800-QUIT-NOW (784-8669)

[KSquit.org](http://KSquit.org)

Kansas Tobacco Quitline services are evidence-based and include client telephone support to increase a person's success at tobacco use cessation.

*“Everybody was very helpful, very informative. They knew exactly what they were talking about, so I was going to an expert, not just anyone off the street. Anytime I needed assistance they were there... just being informative and knowledgeable and being understanding and caring.”*

***Tobacco use\* can cause cancer throughout the body:***

Mouth and throat (oral cavity and pharynx)

Voice box (larynx)

Esophagus

Lung, bronchus, and trachea

Stomach

Kidney and renal

Pancreas

Liver

Urinary, bladder

Uterine, cervix

Colon, rectum

Acute myeloid leukemia

*\*Tobacco use includes smoked and smokeless tobacco products that, to date, have been shown to cause cancer.*
