

TAKING ACTION, CHANGING ODDS

LIVESTRONG® AT THE YMCA FACT SHEET: JULY 2022

FOR YOUTH DEVELOPMENT®
FOR HEALTHY LIVING
FOR SOCIAL RESPONSIBILITY

PROGRAM OVERVIEW

LIVESTRONG® at the YMCA is an evidence-based program that helps adult cancer survivors reclaim their health and well-being following a cancer diagnosis. Participating YMCAs create a welcoming community in which survivors can improve their strength and physical fitness, diminish the severity of therapy side effects, develop supportive relationships, and improve their quality of life. Since 2007, the LIVESTRONG Foundation has been the YMCA's partner in developing and delivering LIVESTRONG at the YMCA.

DESCRIPTION AND GOALS

- Small group, supportive environment
- 12-week program with two 90-minute sessions per week
- Includes cardiovascular conditioning, strength training, balance, and flexibility exercises
- Held in YMCA "Wellness Centers"
- Evaluation includes Functional and Quality of Life assessments before and after participation
- Facilitated by YMCA-certified Instructors

WHO QUALIFIES?

Any adult 18 years old or older who is living with or beyond cancer treatment.

I needed this program to reclaim my life. From the first interview, I was welcomed by people who seemed to genuinely care about my success. Getting to know my group members was an ongoing inspiration, and I found myself in awe of their courage and determination.

–Participant, YMCA of Greater Waukesha

BY THE NUMBERS

Number of participants	81,695
Average session attendance for participants who attend at least 6 sessions	17.6
