

# DID YOU KNOW?

- **1 of every 9 men will get Prostate Cancer** (PC) in their lives.
- **1 of every 6 African-American men** will get PC.
- **Over 29,500 men die from PC each year**, second only to lung cancer deaths.
- **PSA screening is the #1 means of early detection.**
- **Establish a PSA baseline score** by age 50.
- **A rising PSA score** above your baseline **could be PC.**
- **PC detected early** is highly treatable. **95–100% curable.**
- **KNOW YOUR SCORE!** (Your PSA score, that is.)
